Flexible gas and exhaust pipe

Flexible element for safe and durable conveyance of natural and liquid gas.
Optimal adaptation to the varying installation space due to pre-bent pipework elements.

Flexible gas and exhaust pipe

Benefits:

- Customized design
- Flexible and flow optimized profile
- Individual connection possibilities
- Easy installation due to corrugated tube sections
- Bent to customer specification in adaption to the installation space
- Compensation of tolerances due to flexibility of components
- Reduction of variants by flexible part
- Various approvals for gas applications

Technical data:

- Pressure: up to 16 bar
- Temperature: up to 550° C
- Medium: Water, Steam, Exhaust, Burning gas
